## **News from the Tennis Courts**

Greeting's Tennis Members!

I hope everyone is staying warm! It's been a bit tough for tennis lately, but it has been great to see some of you braving the elements as we close in on the spring league season!

Good news- Clay will be arriving next week and we will be resurfacing very soon! The courts will be great for match play and practicing. We have added two new members and should be adding more very soon.

**Men's Night** continues Thursday evenings, and I have a great **Friday Evening 6 pm Class** with a combo of 2.5 type men and women mixed in with some of my high school juniors. It's a lot of fun so join in if you like! You can just drop in or email me at **brian\_wilson2014@yahoo** for more information or any other questions/suggestions.

Finally, team captains for spring, please reach out to me via email so that I can get your rosters to submit to the office to apply league fees for members and guest players.

If you are interested in team practices/clinics I would love to make that happen as well!

I am honored and excited to be the Pro at this great club and look forward to a great 2022!

All my best, **Brian Wilson**

As we build our programs it is important that we all work together to provide a great experience for our members and their guest. Thank you!

The ball machine is available to rent to Members for \$15 an hour. Please see the front desk of the Pro Shop before hitting the court to play and register any guest you may have. You will receive the key and battery once checked in.

*\*Please remember if you are a member bringing a guest, there is a guest fee.*

## **Updates from our Superintendent**

The rollercoaster of temperature change continues as we head into February, but we hope to see stabilized, normal winter temperatures as we move forward. The spring emerge application will be going out at the end of February, which will help with Spring weed pressures. We will continue to pick up the debris from the ice storm as needed, as well as mulch, pinecones, and leaves.

Our new equipment technician, Ryan Fields, is getting familiar with our system and mowing equipment and has already made a tremendous impact. We look forward to his help in the foreseeable future.

Thank you, **David Peek**
